# **DETAILED ACTION**

# Examiner's Statement

1. Applicants' amendments and arguments, filed on 10/11/2005, with respect to Claims 10-19 and 21-30 have been fully considered. The 35U.S.C.103(a) rejection has been overcome by rewritten those objected depend claim 20 in independent form including all of the limitations of the base claim and any intervening claims. None of the previously cited reference teaches the amended independent Claims 10, 16, and 24.

### Examiner Amendments

- 2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
- 3. Authorization for this examiner's amendment was given in a telephone interview with Applicant's representative Michael Cornelison on October 26, 2005.
- 4. The application has been amended as follows: In the specification:
- Page 12, line 31, change "35 and 35" to --- 34 and 35 ---.In the claims:
  - □ Claim 10, lines 23 and 27, change "and/or" to --- and optionally ---.
  - □ Claim 16, lines 23 and 27, change "and/or" to --- and optionally ---.
  - □ Claim 24, lines 23 and 27, change "and/or" to --- and optionally ---.

# Allowable Subject Matter

5. Claims 10-19 and 21-30 are allowed.

- 6. The following is an examiner's statement of reasons for allowance.
  - The prior art fails to teach an apparatus/method of Claims 10, 16, and 24 that specifically comprises the following:
    - -- The instant application is deemed to be directed to a non-obvious improvement over the admitted prior art of the instant application and the invention patented in Pat. No. US 5,894,496, US 5,623,226, US 5,381,108, and US 6,466,628. The improvement comprises that -

With regard claim 10, "wherein the phase angle is not altered if the amount of the measured quadrature phase component is smaller than a predetermined limit value." as recited; and

With regard claim 16, "wherein the quadrature phase component of the complex input signal being applied has a value of zero, the measuring at the second measuring point behind the output of the second differential amplifier takes place at a beginning of every transmitting interval and the determining of the phase correction value comprises altering the phase angle by a step width in a first direction if the measured quadrature phase component is positive and altering the phase angle by a step width in an opposite direction if the measured quadrature phase component is negative. " as recited; and

Art Unit: 2634

With regard claim 24," wherein prior to or concurrent with activating the transmitting device, the phase angle of the phase modifier is preliminarily adjusted such that an output power is measured at a power detector connected downstream of the power amplifier and the phase angle is pre-adjusted such that a minimum of the output results." as recited.

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

# Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ted M. Wang whose telephone number is (571) 272-3053. The examiner can normally be reached on M-F, 7:30 AM to 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on (571) 272-3056. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at (866) 217-9197 (toll-free).
